KOMI DOC
EMPOWERING YOUR DIGITAL WORKSPACE
RETHINK BUSINESS PROCESS MANAGEMENT
WE UNDERSTAND THE CHALLENGES PHYSICAL DOCUMENTS BRING

Managing paper documents can be a cumbersome and challenging process as it is expensive, and documents can be easily misplaced and require huge physical storage space.

On top of this, paper processes also hinder collaboration and productivity. With remote work becoming the new norm, it becomes a top priority for businesses to digitise their business processes to enable remote collaboration, documents access and sharing without compromising on security.

Managing Documents Have Never Been Easier with KOMI Doc

Whatever your needs, we’re up to the challenge.

With multiple advanced features, KOMI Doc will transform the way you work and collaborate. Simple to use, it will help to speed up your filing process, and improve efficiency in document search.

KOMI IWS

Seamlessly integrated with Konica Minolta’s Multi-Function Printers (MFP), KOMI IWS allows you to file scanned paper documents directly into an online KOMI Cloud/ KOMI Doc document management space. Search and retrieval of documents is easy with KOMI Doc’s intuitive search feature via the MFP control panel whereby documents can then be printed out directly from KOMI Cloud DMS.

Admin Console

The admin console allows the assignment of user access and permissions as and when required. Easily oversees groups and users, manage access rights to projects and documents, and delegate tasks so you can start collaborating.

Document Management

Digitise your paper documents and store them in the cloud. Benefit from the platform’s quick and easy setup, without any need to maintain the server.

Document Search and Retrieval

Easily locate and retrieve documents in any file format using a simple search box or create your own advanced search criteria.
Document and Folder Subscriptions

Receive real time alerts each time a change is made when you subscribe to specific documents and folders. An email with secure link to the updated content will be sent to the user.

Version Control

Eliminate the need to manually sort and track your documents version with KOMI Doc’s version control. View what was changed, when and by whom.

Online Workspaces

With KOMI Doc’s smart collaboration tool, you can invite others to edit, review and comment on your documents in real time, enabling collaboration online with ease.

Workflow Manager

The ready to deploy yet easily extensible Workflow Manager engine of KOMI Doc provides you the possibility to set-up standard and advanced document routing and approval processes, just by drag and drop.

Mobile App

Access, manage, file and retrieve your documents On-The-Go with KOMI Doc’s mobile app. It is now possible for you to collaborate and stay connected, anytime anywhere.

Security and Confidentiality

Have peace of mind while collaborating on content and sharing information online with KOMI Doc’s security features which include encryption, multi-factor authentication, digital watermarks, access rights control, and other top-level security features etc.
RETRIEVE ANY DOCUMENTS INSTANTLY

Print & scan right from your MFP control panel

KOMI Doc enables you to retrieve documents instantaneously according to highly relevant search modes that are fast and easy to use.

1. Browse your Windows type folders structure to precisely locate a file.

2. Retrieve any documents right from your Konica Minolta’s MFP control panel and print them on demand.

3. Benefit from OCR technology and from a «Google like search box» to retrieve file on content.
