Giving Shape to Ideas

Printing is generally required throughout the organisation, it will be expensive to maintain if the print environment is not operated in optimal condition. Without proper tracking tool, it will be difficult to measure and control the expenditure. Most corporate environments need an accurate overview of printing operations and costs in order to meet budgets and keep the cost of printing down. Also, educational and public organisations and users with project-based work usually charge printing costs to the individual user.

With Konica Minolta Cost Accounting Solution, you can achieve transparency of all printing activity and related costs, keep extensive print volumes in check, and put an end to unnecessary printing. The Konica Minolta Cost Accounting Solution provides detailed reports on your organisation's overall print spend as well as a breakdown of usage per department, per individual user and per type of printing. This way you can analyse the pattern of spend and gather the information needed to better control user access and manage your costs.

1. IMPROVE COST AWARENESS

Automatic output and cost reporting

Avoid tiresome and lengthy manual collection of printer usage. With Konica Minolta Cost Accounting Solution proper output and cost reporting functionality, Administrators and Approved Users can generate comprehensive usage reports at the push of a button and rein in their usage as needed.

Gain Control

Centralised user and role management

With Konica Minolta Cost Accounting Solution, administrators can allocate user access and set user rights remotely, taking into account job requirements and applying appropriate restrictions such as not permitting colour printing.

Cost assignment and chargeback

Enterprises need a reliable overview of all print costs to ensure accurate and transparent invoicing to each department. With Konica Minolta Cost Accounting Solution, you have accurate reports on hand to be able to charge back the department accurately for all costs related to printing.

2. REDUCE COSTS

Assign user roles and control access

Administrators can set usage limits for users and groups, and select warning and notification settings to control the total print output, colour output total print output or B&W output. By imposing group, user, or department-based limits on printing, you reduce output to only what is really needed. This way you save costs not just on printing but on paper, toner and electricity as well.

3. CAPABILITIES AT A GLANCE

Central collection of detailed counter readings and cost calculation

Centralised user and role management

Cost assignment and chargeback - Recognises all cost originators and correctly allocates costs for reliable invoicing

Setting of Output Budgets per user or department

Automatic Report Scheduling - aggregates information at fixed intervals

Mechanisms for budget allocation and account recharging - ensure a balance between central control and individual flexibility

Detailed output and cost reporting - provides comprehensive information with one click, without time-consuming manual collecting

Panel personalisation - Print, scan and copy jobs are found faster, enhancing productivity right across the whole MFP infrastructure
