BUILT FOR GROWING BUSINESS

A3 Monochrome bizhub 367 series

bizhub 367/287

Giving Shape to Ideas

Business needs are changing with the smart proliferation of smart devices and cloud usage. The new monochrome bizhub 367 series provides the latest technology and is designed for business that requires connectivity, functionalities, good user experience and productivity.

Business users can expect improved efficiency, reduced energy consumption and smaller hardware footprint. The new series are also packed with the latest security technology.

The new bizhub 367 series comes with an intuitive 7-inch control panel. Its on-screen soft menu keys and hard menu keys allow users to register up to 9 commonly used functions.

AirPrint

Apple's standard printing system compatible with iOS 4.2 and Mac OS 10.7 or later. A compatible printer on your wireless LAN can be used.

Mopria Print Service

Wireless printing technology established by Mopria Alliance. It allows you to print from devices installed with Android 4.4 or later.

Google Cloud Print

A cloud print service provided by Google. User can print from any location via the internet regardless of OS or device type.

Konica Minolta Print Services

Print directly to bizhub via a wireless LAN from all apps that support Android's print function.

PageScope Mobile

Konica Minolta's proprietary mobile print application allows usage of wide range of bizhub functions such as duplex print, security print, staple and punch.

¹ Android devices must be installed with Android 4.4 or later and NFC Antenna that supports HCE (Host Card Emulation). For iOS devices, iPhones4s or later, 3rd generation or later iPad and iPad mini are compatible with Bluetooth LE.

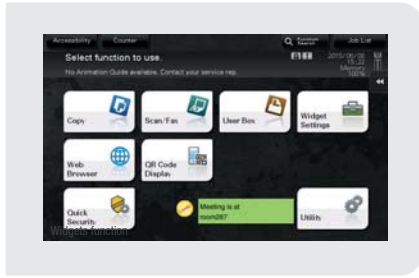

² Optional Device Connection Interface Kit EK-609 is required.

³ Google Cloud Print Setup and Google account registration are required. Optional Upgrade Kit UK-211 is required.

The new series supports mobility that allows users to scan and print with Near Field Communication¹ (NFC) or Bluetooth LE² and the standard mobile print technologies such as Google Cloud Print³, Apple AirPrint and Mopria Print Service; alongside Konica Minolta proprietary mobile print technologies like Konica Minolta Print Service and Konica Minolta PageScope Mobile. It allows information-sharing and document management through Cloud services where users can scan to Cloud and Print from Cloud.

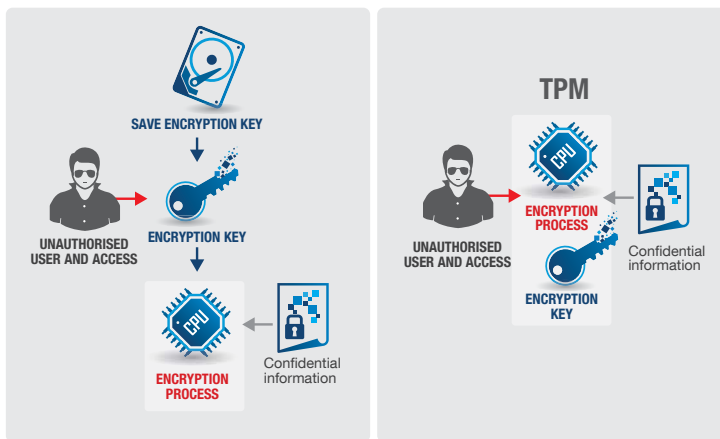

Equipped with latest MFP controller architecture, the bizhub 367 series has standard web browser. The newly developed control panel allows the use of multi-touch UI to display, print and distribute website or content.

With the improved Auto Refine Development Technology, users can expect enhanced image quality.

The new bizhub 367 series comes with embedded widget application where users can install and execute within the MFP operation panel. Text boxes, icons or GIF animations can be installed and used for internal communication such as messages and rules.

SECURITY FEATURES

The bizhub 367 series' main controller conforms to IEEE standard 2600.1 – 2009^{*1} and it is equipped with TPM^{*2} (Trusted Platform Module) to protect confidential information. It enhances security by completing the encryption process within the chip for a safer encryption process.

Previous encryption process

*1 currently under application for ISO/IEC 15048

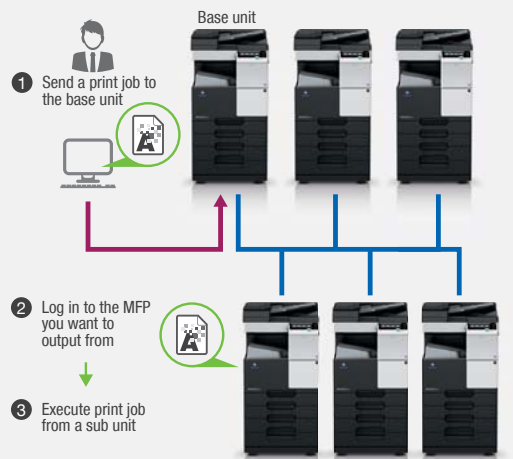

*2 Optional i-Option LK-115 v2 is required

SERVER-LESS PULL PRINTING

With server-less pull printing, print jobs sent by users can be printed from any MFP in the same network.

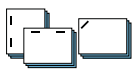

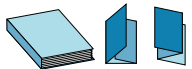

* A pull printing system supports up to a maximum of 10 MFPs. It is necessary that all corresponding MFPs to be in the same network.

* Options required
 Base unit : LK-114 + UK-211 + HD-522
 Client unit (Web Browser OFF) : LK-114 + UK-211 + HD-522
 Client unit (Web Browser ON) : LK-114

FINISHING OPTIONS

The new bizhub 367 series supports a wide range of finishers for various types of output. Users can create and produce a variety of printed materials in-house which will lead to more flexibility and productivity.

 <p>Stapling function</p>	 <p>Binding (booklet) & Folding functions</p>	 <p>Punching function</p>	 <p>Cover sheet & paper insertion functions</p>

> GREEN

The bizhub 367 Series has been awarded the International Energy Star Program Version 2.0 (revised in January 1, 2014).

Users can monitor and implement green initiatives by adding shortcut keys for Eco function such as toner/ paper saving or power saving on the control panel.

**Environmental
contribution is
always the
TOP PRIORITY**

Top class power consumption and TEC value in its class

The MFP's CPU power is set to turn off during sleep mode. This results in a top class 0.5 W power consumption ratio (during sleep mode). The TEC value has also been reduced approximately by 32-55%. Less CO₂ emissions from MFP.

* Values for 220-230 V

* TEC values applied to the International Energy Star Program Version 2.0

Yearly CO₂ emissions:
TEC value × 52 weeks × emission factor
(From the November, 2011 press release by Japan's Ministry of the Environment.)

Usage of the recycled materials

Recycled PC/ABS and biomass plastic have been used in the MFP body. The recycled material usage is approximately 11% of total MFP weight ratio¹ and approximately 51% of the MFP main body are made by the recycled materials.

¹ Total weight ratio of resins and plastics used in this machine.
